ERGONOMIC ISSUES  
FOR THE 90'S

APRIL 14 & 15 1993

Ramada Renaissance Hotel  
Dartmouth, Nova Scotia

## Description

This seminar will introduce participants to the wide range of issues related to Ergonomics. Four experts will be presenting topics in their respective areas of expertise, and will be prepared to answer questions from the participants. There will be a workshop and case study where participants will be able to put some of their knowledge to use.

Ergonomics is an issue that has been around for many years, yet there is still much to be done to improve the ergonomics of workplaces. The speakers will address upcoming and current legislation, analysis tools and information sources, physical demands analysis and accommodation of injured workers.

## Objective

To familiarize participants with the current information available on the topic of Ergonomics. Will give an overview of legislation and allow some practical exercises for participants.

To provide a forum through which contacts can be established and information can be exchanged.

## Who Should Attend?

This seminar is intended to benefit anyone who may be expected to provide ergonomic services to their company and/or employees. This would include personnel responsible for placement of injured workers; those required to perform workstation ergonomic analysis or employee education; and supervisory personnel.

## Program Outline

The seminar will consist of the following:

April 14

8:00 Registration  
8:30 Welcome  
8:40 Introduction  
10:15 Legislation  
1:00 Tools & Info Sources  
2:30 Education Session (A prototype)  
4:00 Question & Answer Session

April 15

8:00 Physical Demands Analysis Workshop  
1:00 Accommodation of Injured/Disabled Workers  
3:15 Case Study Workshop  
4:15 Closing

## Session Organization

**Day 1**  
Registration: 8:00 Session Begins: 8:00  
Session Begins: 8:30 Lunch: 12:00  
Lunch: 12:00 Session Ends: 16:30  
Session Ends: 16:30

**Day 2**  
Session Begins: 8:00  
Lunch: 12:00  
Session Ends: 16:30

## CM Points

Application has been made for Certification Maintenance Points.

## Seminar Speakers

### Carrie Taylor Van Velzer

Carrie graduated from the University of Guelph with an Honours B.Sc. in Human Kinetics, and is currently working on a Master's Degree in Human Biology. Carrie has worked with Human Factor since 1990, acting as Ergonomics Consultant to automotive manufacturers, food processing and packaging companies, office environment, health care industries and parts manufacturing plants. Carrie has training in instructional design and techniques, and has developed and facilitated numerous ergonomics training programs.

Jonathon Tyson

Jonathon graduated from Waterloo with a B.Sc. in Kinesiology, and is currently working on a Master's Degree in Industrial Engineering. Jonathon has worked in mining, where he provided programs to help reduce back injuries. He has also worked at York University where he served faculty and staff groups in providing expertise on office ergonomics, maintenance ergonomics and back care education. He is now employed by Michelin Tires as an Ergonomist.

Kelly Bang

Kelly has a B.Sc. in Occupational Therapy from Columbia University, as well as a Master's of Adult Education from St. F.X. Kelly's work has focused on the prevention and treatment of work related injuries, especially back injuries and cumulative trauma disorders. Kelly now owns and manages her own company, which provides services to interested businesses and industries and health professionals.

John Kozey

John has a M. Sc. in Kinesiology (Biomechanics) from the University of Waterloo. He is a Ph.D. candidate in the Department of Industrial Engineering, at the Technical University of Nova Scotia, where he is also active as a Special Lecturer. John is currently an Ergonomics/Human Factors Consultant with Kin-Eng Consulting in Halifax. John has gained previous experience in the field as a former Director of Research at the Orthopedic and Sport Medicine Clinic of Nova Scotia. John has a number of publications to his credit, has given numerous conference presentations and has maintained professional affiliations with agencies such as the Canadian Society of Biomechanics.
